

# ISM Lite from STI

# Safety Management System

Doug Prothero

- Vice Chairman and Trustee of Sail Training International

Stephan Kramer

- Member of Class A Forum
- Captain WYLDE SWAN

# The difference between theory and practise

- RI&E
- Safety Committee
- Drills & Exercises
- Contingency Plans

# Combine theory and practise

- Good seamanship
- Sophisticated Situational Awareness
- Road book
- Correct maintenance

# Combine theory and practise

- Road book = ISM manual
- Correct maintenance = preventive and planned maintenance instead of breakdown maintenance

# Combine theory and practise

Road book = ISM manual

- ISM LITE =
  - Part A = Procedures
  - Part B = Checklists, Emergency Flowcharts and Formats
  - Part C = Maintenance

# Combine theory and practise

What are your major concerns about implementing and using a safety management system?

# Combine theory and practise

What regular activities do you monitor now (i.e. drills, inspections, maintenance)?

# Looking back:

- Questions raised from the ISM Lite 2011?
- Safety Management Manual download from STI website from 30 November
- Calendar (maintenance)
