THE TALL SHIPS RACES
Harlingen 2018
organised by Sail Training International

WELCOME IN OUR CITY OF HARLINGEN

Welcome on these spectacular days in our city of Harlingen which will soon be part of your most cherished memories.

During the Tall Ships Races you will encounter the wonders of the rugged character of the port of Harlingen. One of the best things about our port is that it is within walking distance of the city centre. So it is very easy to spend some time with the people of Harlingen. You will learn about the nautical past by watching the mercantile buildings, the canals, and the two harbours, the Noorderhaven and the Zuiderhaven. We highly recommend our pubs and restaurants. You will see that there is a lot to discover in our city.

Harlingen gets its character from the Wadden Sea. The Wadden Sea is part of the Unesco World Heritage. It's a wonder of nature and you can enjoy the view during the Sail In Parade.

Harlingen is known for its history, which is the inspiration for many other events that Harlingen organizes, like food-festivals, live music and major events such as Harlingen Ongeschut and the Visserijdagen.

Would you like to learn more about Harlingen? Then dive deeper into the history by visiting the Aardewerk & Tegelfabriek. There you can see the handmade pottery of Frisian Blue. Or visit our local museum, the Hannemahuis and experience our glorious past depicted in beautiful paintings. In the Willem Barentsz Project you will learn about Barentsz' voyage to explore the Northeast passage to China and the Indies; a replica of his 16th century ship is being built here and can be visited.

We are happy to be a part of your Tall Ships experience. Thank you for your contribution to this magical moment. Together we will add another chapter to the history of Harlingen and make it a once in a lifetime experience. I wish you a wonderful time and a nice stay in our port and our city.

Yours sincerely,

Roel Sluiter
Mayor of Harlingen

The Willem Barentsz project.

Location: Nieuwe Willemshaven

www.debarentsz.nl

In the year 1596 Willem Barentsz undertook an expedition to explore the Northeast Passage to China and Japan. The crew stranded on the island of Nova Zembla (Novaya Zemlya) because they got stuck within the thick ice. The whole long and extremely cold winter was spent in a wooden house called: Het Behouden Huis (The Saved House). After the winter they sailed back to Holland in two little boats. During that voyage Barentsz died. In Harlingen a group of volunteers is building a replica of Barentsz' ship, working with authentic materials and procedures. In the summer of 2018 the ship will be launched. Let us inform you about this illustrious voyage. Come aboard this unique ship under construction! You are welcome at the shipyard in the Willemshaven.

Opening hours:

Monday-Friday: 11:00-17:00

Saturday-Sunday: 13:00-17:00
