CAPTAIN'S MANUAL

Tall Ships Races - A Maritime Fairytale

Most fairy tales include the number three. The main person often has to pass three tests or is given three wishes. The fairy tale of Tall Ships Races in Aarhus is no different. When the beautiful tall ships arrive in Aarhus Harbor this year, it is the third time we are welcoming the ships and crews from all over the world.

The two former Tall Ships Races in Aarhus in 2007 and 2013 were fantastic events. Very few cities are as lucky as Aarhus - we are able to dock the ships in the middle of the city, and in this way, the entire city is feeling the presence of the Tall Ships Races-fleet. Aarhus oozes of a regatta-atmosphere every time your beautiful ships arrive. The citizens of Aarhus have loved the Tall Ships Races right from the beginning. Just as you, they are excited and have big expectations to Tall Ships Races 2019.

Therefore it is with great pleasure that we are able to bring Tall Ships Races even closer to the city this year. The harbor of Aarhus has been renewed and expanded since 2013, and we are excited to welcome you right here in the middle of the city. Several new squares will be the focal points of Tall Ships Races 2019. Our new areas are filled to the brim with cultural activities, free and enjoyable for both crews and visitors.

The event team has worked night and day to make sure, that The Tall Ships Races 2019 Aarhus will be an even bigger success than the previous two visits in Aarhus. In cooperation with companies, sports clubs and organizations in the region, they are providing a world class event with 400.000 expected guests over the four days.

When docking in Aarhus, you will meet hundreds of friendly volunteers, who are committed to give you the best possible experience during your stay. We want to express our gratitude towards these wonderful people, who spend a lot of time to make sure, that Tall Ships Races 2019 runs smoothly.

The only thing left to say is "Velkommen til Aarhus" - we are delighted to have you here.

2. Arrival Arrangements

2.1 Charts

Charts are offered in two parts. Bay of Aarhus and Port of Aarhus. These are available as Danish charts and as British Admiralty (BA) charts.

- Danish chart no. 112 (int. 1380) Bay of Aarhus.
- Danish chart no. 127 (int. 1372) Port of Aarhus.

- BA. chart no. 2590 Bay of Aarhus.
- BA. chart 8174 Port of Aarhus.

All charts exist as paper and ECDIS charts. Further info and purchase can be made following this link: <https://www.weilbach.com/da>

A detailed map of the port of Aarhus, not applicable for navigation is available following this link: https://www.aarushavn.dk/download/terminaler/4043_aarhus_havn_a4kort.pdf

Furthermore, approach and specific berthing info will be given to Masters in Bergen before commencing journey towards Aarhus.

2.2 Tides

Under normal weather conditions tide and currents are minimal in the Port of Aarhus. Tidal fluctuations between +/- 30 cm can be expected and currents in the area are negligible.

2-3 days tidal forecasts for port of Aarhus havn can be found following this link: <http://www.dmi.dk/hav/maalingervandstand/>

2.3 Frequencies

VHF channel 12 is the principal port operations frequency and should be used for all arrival communications, pilotage requests and emergency situations.

2.4 Call Signs

The call sign is "Aarhus Port"

2.5 Arrival procedure

- Monitor VHF Ch. 12 and Ch. 16
- Call Port of Aarhus (VHF Ch. 12 Port of Aarhus) 2-hours prior arrival approach buoy Aarhus. State requirements (Pilot, Tugs, Linesmen). Updated berthing info will be advised from port.
- Call Port of Aarhus again (VHF Ch. 12 Port of Aarhus) 1-hour prior arrival to confirm arrangements and ETA.
- All inbound vessels for Port of Aarhus must broadcast intentions (VHF Ch. 12) on passing approach buoy.
- All outbound vessels must broadcast departure (VHF Ch. 12) on departure from berth.
- Upon passing approach buoy attention must be paid to arriving/departing High-speed ferries (also monitoring VHF Ch. 12). Port of Aarhus will assist if necessary.

2.6 Practical berthing info

Assistance:

- Pilots, tugs and linesmen are monitoring VHF Ch. 12
- There are no legal requirements for pilots or tugs in Port of Aarhus
- If using tug assistance, pilot is required
- Pilots and tugs assistance must be ordered 2-hours prior arrival/departure.
- Linesmen must be ordered 1-hour prior arrival/departure.
- Pilot, tugs and linesmen are free of charge for all ships (covering 1 arrival and 1 departure). However, class A ships have first priority, if pilots and tugs are needed by more ships.
- Fendering in berthing areas are car tires. Yokohama fenders are not available from the port.
- Vessels are expected to provide fendering and gangway arrangements themselves.
- Some vessels will be doubleberthed.

Port of Aarhus expect all vessels to comply with relevant legislation regarding mooring and gangway arrangements. Port regulations can be found following these links: <https://webhouse.ipapercms.dk/AarhusHavn/Forretningsbetingelser/forretningsbetingelser-2019/?page=2>
https://www.aarushavn.dk/download/publikationer/standardreglement_.pdf

With regards to specific berthing instructions, regulations or any questions that may arise, Port of Aarhus will be present in Bergen before vessels depart for Aarhus.

9. Liaison System

9.1 Liaison System

Aarhus has assigned dedicated liaison officers (LO's) to each vessel in The Tall Ships Races. They will all be dressed in orange colored t-shirts and wear credentials. Your vessel will be met by a team of LO's upon arrival in the Port of Aarhus. The LO's will then be at your service every day and will report on board after the early Liaison Officer briefings. First visit is expected around 9am

Through the LO's, we will provide you with essential information, much of which is contained within this manual, and will keep you up-to-date with any revised or new material throughout your stay in Aarhus. Your LO's will be pleased to assist you with any queries you may have and to help you with various arrangements that will be required during your stay - details of which appear in this manual.

The LO's aim is to enable you and your crew to enjoy your visit in Aarhus. They will advise you of full details of the activities organized for captains and crews. In order to provide the maximum assistance, we anticipate that your LO's will spend as much time as possible with your vessel and crew, and you are cordially requested to afford your LO's suitable facilities.

All LOs are equipped with a mobile telephone to ensure the best contact between your vessel and the designated team of LO's. Name, contact details of your team of LO's and LO team phone number will be provided by your designated LO team upon arrival. The LO system can also be contacted by addressing the staff in the LO and Volunteer Centre.

10. Ship Services

10.1 Fuel

There will be opportunity to refuel oil in Port of Aarhus

**Fuel have to be ordered prior to arrival in Aarhus.
Deadline for ordering is 29th of July.**

Fuel must be ordered using the enclosed form. Only vessels with guild tax / VAT numbers have the opportunity to refrain from paying tax.
Fuel will be provided by tanker vehicle directly at the ships.

Fueling takes place Thursday 1st and Friday 2nd August in the periode 6 to 10 am.

Payment info: Only possible by credit card.
Fuel order have to be sent by mail to bunkersales@q8.dk

Form to be found at www.tsraarhus.dk/forcaptains.

10.2 Water

Fresh water will be available at the berths.
Ships are supposed to use their own hoses as far as possible, and the crews to fill their own water tanks. Filling of tanks should be done at night or in the morning to avoid hoses on the quay in rush hour.

10.3 Electricity

Ships without own generator can ask for electricity through the LO's. Whilst every effort will be made to supply those Class B, C, and D vessels requiring an electrical supply, there is no guarantee, and ships cannot expect to receive electricity constantly during the event.

10.4 Waste

Ships should use their own garbage sacks for garbage. Waste sacks are to be brought to waste containers on the quay between 01.00 am and 07.00 am by the crew members.

Vessels that do not deliver their waste in the quay containers before 07.00 am will need to bring the waste to centrally located waste containers.

In Aarhus, waste will be collected in four categories:

- Glas/metal
- Paper/cardboard
- Food waste
- Trash (residual waste)

10.5 Sewage and Bilge Water

**Sewage and bilge water emptying should be ordered prior to arrival.
Deadline for ordering is 29th of July.**

Please, help us to take care of the clean water in the Port of Aarhus.
Sewage and bilge water is to be collected by a special vehicle and should not be pumped overboard.

There is one free emptying per vessel.

Form to be found at www.tsraarhus.dk/forcaptains.

10.6 Gas

**Gas have to be ordered prior to arrival in Aarhus.
Gas cylinders can be ordered by sending to the mail below.
Deadline for ordering is 29th of July**

Propane or liquefied petroleum gas (LPG) is subject to Danish legislation, that means gas can be exchanged only in Danish standard cylinder.
DK LPG standards: <https://shop.aga.dk/shop/en/dk-ig/propane-gas-industrial-household/propane-3074457345616783228-105>

Vessels can pre-order gas cylinders through the E mail below, and LPG gas will be delivered at the vessel.
Thursday August 1st and Friday August 2nd 6 - 10 am.

Orders: nash@nash-gas.dk
Payment only in cash DKK or EURO

10.7 Repairs

In port, orders should be placed through your LO's as soon as possible. Your LO's and a special team will then try to provide the contact of a company, which can help with the repairs.

10. Ship Services

10.8 Stores

In port orders can be made to AB Catering by using their online ordering system.

AB Catering is a Danish supplier of food and non-food articles selling all kinds of groceries: fresh, frozen, bio, beer, wine etc.

12. Sustainability

12.1 Tall Ships Races Aarhus Sustainability

The City of Aarhus has developed a new and greener sustainability-event-strategy. This means, that we will be working to improve sustainability on following areas:

Transport

We are making it easier for guests to get to Tall Ships Races by bicycle or public transport. We do this by improving bicycle parking-facilities and communicating the sustainable alternatives to getting here in car. During the event we will offer the audience sails in our solar energy-driven ferry "Solfærgen". Intern transportation will primarily be by bicycles or in electronic cars.

Waste

We offer waste sorting for our guests, just as we sort waste backstage. We cooperate with the local recycling center ReUse about loan of furniture and other interior to minimize consuming and promote recycling. We will be making sweeps in the sea in cooperation with local sailing and surf clubs.

Food

We prioritize local production, organics, food waste avoidance and FSC certified packaging in the selection of food stalls on the event site. Furthermore, we will prioritize a broad selection of food stalls, and make sure that we also offer vegetarian and vegan food.

Energy

We use as energy effective solutions as possible. The total energy use of the event will be coming from windmills and other renewable energy sources. If generators are to be used, we will make sure that they use biodiesel. Finally, our electric cars will be charged at night, where there is a lot of excess power.

Volunteers

In cooperation with the Aarhus volunteers (Rethinkers) we are educating a special group of volunteers in sustainability. The volunteers will help the audience make sustainable choices and communicate the sustainable initiatives to the audience.

Innovation

We are working on a mussel farm which can clean polluted sea water. We will also be showing "seabins", a new and innovative way of collecting trash in docks.

12.2 ReUse - Free Cutlery and Interior

Tall Ships Races Aarhus is cooperating with the local recycling center ReUse about interior on the eventsite.

ReUse does also offer interior an cutlery for the ships and crews participating in Tall Ships Races 2019.

If you are interested in picking up free interior, cutlery or other recycled stuff, you can visit ReUse at:

Jægergårdsgade 164C, DK-8000 Aarhus C

Opening hours: 10-17
