RECAP ON OUR DISCUSSIONS LAST YEAR

Sail Training International

Challenges in getting response from ports/ships with regard to commercial arrangements

Conference changes:

- The Tall Ships Races 2025 Preview session – new format
- The Tall Ships Races 2026 Preview session – new session / new format
- Ports and ships networking session replaces Speed Meeting session

Challenges in getting response from ports/ships with regard to commercial arrangements

Also

- Host Ports have been more proactive in their communications with ships
 - TSR2025 Ship Recruitment going well, any comms issues have been dealt with promptly
 - TSR2026 host ports started reaching out to the fleet in April 2024 and have been very proactive in encouraging vessel operators to engage with them to discuss commercial arrangements
 - Shared ship recruitment spreadsheet between STI and the Host Ports – constantly updated, allowing shared intel and facilitating action
 - FINALLY onboarding of Gateway system for host ports imminent– will allow better access to ships information/requirement/contact details, etc.

IS IT HELPING?
